## 2006 Wedding Reception Packages

Many Brides are too busy to deal with all of the details that go into planning a wedding reception. Country Catering and Special Events has designed several packages for busy and budget-minded brides. These packages include everything that is needed for feeding your guests at your wedding reception. Each has been designed for events with 100 or more guests, do not allow for substitutions and therefore may not be advised for certain venues and for groups of less than 100. Prices vary depending upon the package selected. Although these serve as good guidelines, the venue may increase the price if it is not 'caterer friendly'. A couple of 'caterer friendly' examples include but are not limited to, the ability to use carts from vans to buffet and use of running water. Please review our Policies and Procedures prior to ordering and before relying on the information herein, please call for a price quote.
